Summary

With over a decade of experience as a freelance producer, I have established a registered production company in Mexico City specializing in photo and broadcast video production. As a trilingual professional fluent in English, Spanish, and French, I am equipped to work with clients from diverse backgrounds. My dual citizenship in the United States and Mexico allows me to seamlessly navigate between both countries and leverage the best resources from each.

I offer comprehensive production services, including estimating, location scouting, permitting, studio and equipment rentals, and coordination of production elements such as hair, makeup, styling, and casting. I am COVID-19 Certified Level A, ensuring a safe working environment for all team members. As a dedicated professional and team player, I am committed to delivering high-quality productions that exceed client expectations.
