To whom it may concern:

Cornelius Greenway has provided broadcast services in the U.S.A. and Canada for TVE (Spain's national public TV) since 1989.

Mr. Greenway is a consummate and highly resourceful television professional.

He has worked for us covering top events that our network has produced.

He is a versatile individual acting as a producer, cameraman, editor and logistics coordinator, even conducting live interviews on location when needed.

He is the kind of profesional that needs little or no supervision or instructions to accomplish his assignments.

Sincerely,

Miguel Moreno
Producer
